

JOURNEYMAN INK

ABOUT US

Journeyman Ink is a team of artists, athletes and activators united and committed to strengthening social and emotional intelligence and creating safe spaces for authentic connections. We exemplify and invigorate compassion, empathy, trust and engagement within schools, communities and organizations by facilitating interactive multiple intelligence experiences that support and equip people to build stronger relationships, become better

communicators, and ultimately lead more fulfilling and healthier lives.

We believe that by disrupting a culture of isolation and distrust, we can restore opportunities for authentic connection with one another and remedy the tendency toward disconnection that can, in the end, undermine the health and success of any person, team or organization.

We believe in the power of personal connection and that empathy, compassion, and trust can lead to positive and powerful results. We believe in empowering people to become more mindful and socially and emotionally intelligent so that everyone experiences self-worth, connection, love, and belonging. Whether you are looking for engagement for youth or adults, small or large groups, we can find a service that fits your needs

OUR SERVICES

Event Production

We've partnered with organizations like Dallas ISD and the City of Dallas in order to enhance and deepen the personal, social, and community impact of a number of different events. By intentionally leveraging our extensive network of artists, educators, and performers we can create the atmosphere and energy that any client is looking for. Our event production services include:

- Ideation and event visioning
- Contractor management
- Emcee/hosting
- A variety of performance artists including spoken word, vocalists, instrumentalists, and motivational speakers.

Conference Support/Enhancement

No matter the subject material or focal point, conferences happen for one reason: to connect people over a common interest. Let Journeyman Ink help enhance your participant's experience by providing:

- Moments of interaction and connection between participants
- Opportunities for sense-making and synthesis
- Smooth transitions between scheduled speakers/guests
- Structured moments of reflection

Keynote

Sometimes an event or a conference needs a central focal point. With over 15 years of experience in the fields of emotional literacy, intergenerational facilitation, spoken word, SEL, and mental health we would be happy to work with you to create a suitable centerpiece performance for your event that lasts between 45 and 60 minutes.

Performance/School Assembly/Professional Development (Basic)

Our interactive assemblies inspire and empower individuals to find their voice, speak their truth and share their light while developing the social and emotional learning skills necessary for healthy relationships in any environment. These 60-90 minute experiences include

- Activation of joy through interactive experiences
- Invitation to depth through storytelling, writing, and personal expression
- Offerings of reflection through structured conversation and opportunities to share

Performance/School Assembly/Professional Development (Enhanced)

Over 15 years of experience at the point of connection between emotional literacy and art has gifted us with a number of incredibly talented colleagues. Let us enhance your live experience by bringing people like:

- Live painters
- Live scribes
- Professional Percussionists
- Professional spoken word artists/Vocalists

Retreat

Whether for a board, executive leadership team, or a whole organization, we understand the value of stepping back from the work, taking a breath, and connecting with colleagues and partners. We would be glad to design spaces for authentic connection, and facilitate open and honest dialogue as well as support personal and professional rejuvenation.
